Frequently Asked Questions:

Why do we need Career and Technical Education (CTE) classes?

- Workforce Development
- Adaptable skills and industry knowledge
- Engaging learning environment for students
- CTE students report becoming:
 - Effective problem-solvers
 - Intrigued, dynamic learners
 - Engaged, team-focused leaders
 - Collaborative and creative critical thinkers

Who can participate?

- Any 9-12th grade student can participate in CTE coursework
- Open to 15+ area high schools across 3 states including:

-Sioux City East	-Bishop Heelan Catholic	-Lawton-Bronson	-Le Mars
-Sioux City North	-Dakota Valley	-Siouxland Community Christian	-Woodbury Central
-Sioux City West	-Hinton	Sergeant Bluff-Luton	-Westwood
-Akron-Westfield	-Kingsley-Pierson	-South Sioux City	

Do students earn college credit?

- Yes, through Western Iowa Tech Community College
- Dual high school and college credit allow students to decrease time spent in post-secondary education

How does this impact the community?

- Community business partnerships give students meaningful, real-world experiences
- SCCSD creates career pathways that meet market demand
 - Students train in fields with high job placement rates
 - District leaders listen to local business community needs
 - Curriculum is developed to prepare students to fulfill local market needs
- Through internships, students create relationships with local employers
- Siouxland will retain more young professionals to fulfill local work force needs

What makes the Career Academy so special?

- Students get to explore career while in high school, saving them time and money after graduation
- Students learn from teachers who have industry experience, and alongside peers who have a similar interests
- The campus is set up like a college and students have opportunities they may not have in their traditional high school setting
